## ADVANCE SKIN MACHINES Radio Frequency Micro-needling

*This treatment is great because it improves your skin tone and texture, in turn, will help with fine lines, wrinkles, skin laxity, and acne scarring. RF micro needling kick-starts the biological processes for the new creation of collagen and elastin as well as delivering radio frequency energy deep into the dermis which further enhances skin tightening and scar reduction. The radio frequency energy heats the underlying layers of your skin, resulting in both the constriction and tightening of your skin. Because RF energy reaches a deeper level than possible with just traditional standalone micro needling, it can produce faster, more dramatic results*

**SESSIONS:** 4-6 treatments is recommended for ultimate results

**DOWNTIME:** 5-7 days ( depth& area dependency)

## VEIN REMOVAL

a non-invasive treatment used to eliminate unsightly red veins, thread veins, and other vascular blemishes on the skin. It utilizes thermocoagulation, a process where a low microwave current is delivered to the vein through a fine needle, causing it to collapse and seal off. This treatment is known for its instant results and minimal discomfort, making it a popular choice for those seeking to improve the appearance of their spider veins

**SESSIONS:** Depending on size of facial vein normally 2 sessions  
Legs vein thicker and needs 4-5 sessions

**DOWNTIME:** 3-5 days of small crust forming but you can wear make up the following day.

## MICROBLADING

Microblading is a semi-permanent cosmetic tattooing procedure for the eyebrows that uses a specialized tool with tiny needles to create hair-like strokes, mimicking the natural look of eyebrow hairs. This technique creates a fuller, more defined brow by depositing pigment in the superficial layer of the skin.

**SESSIONS:** 2 in total

**DOWNTIME :** 5-7 days homecare is included in procedure
